

Dashboard Methodology: 3B

Commitment 3: Diverse Tenure Systems

3B	Implementation of diverse tenure rights and regimes, including secondary rights of tenants, sharecroppers, and pastoralists
----	---

Section 1: Description of Indicator, Implementation and Scoring

Method to be Used	Expert-Based Assessment	
Introduction	Indicator 3B measures the implementation of tenure security measures in diverse systems of tenure and production according to three parameters: 1) political will to enforce and improve current land rights frameworks, 2) adequate funding for formalization, and 3) adequate institutional support.	
Source of Methodology	Land Mark (adapted)	
Data needed	The information necessary for this indicator can be found in the national budget, documents related to policies to support diverse tenure systems, and published analyses of how the government is implementing laws to secure the diverse tenure rights.	
Definitions	Diverse tenure and production systems include the communal and customary tenure systems of smallholders, sharecroppers, pastoralists, fisher folks, the secondary rights of tenants, and holders of overlapping, shifting and periodic rights to land and other natural resources, even when these are not recognized by law.	
How to Implement	<ul style="list-style-type: none"> • Questions should be answered by a chosen representative of the stakeholder group that is implementing the indicator. <ul style="list-style-type: none"> ◦ No specific requirements apply, though a knowledge of diverse tenure systems and how their treated in national legislation and policies, as well as national institutions, will be beneficial. • There are only three questions to answer for this indicator – all included in Section 2, Block 1. <ul style="list-style-type: none"> ◦ For each question answered positively – with a number greater than 0 – please provide a brief explanation and references where applicable. • Once you have a total score for Block 1, with justification and references (as applicable), you can calculate the Final Score in Section 3. 	
How to Score	Block 1:	For each question, assign the corresponding score (0-3) from the rubric provided. Provide justifications and references and, at the end of Block 1, sum the scores from these three questions to derive B1.
	Final Score	Divide B1 by total possible points (9) to derive the Final Score for Indicator 3B.

Section 2: Assessment

Block 1: Implementation of diverse tenure rights and regimes, including secondary rights of tenants, sharecroppers, and pastoralists

Methodology: Land Mark (adapted)

To Score: Use *Block 1 Rubric* below.

1	<u>Political will to enforce and to improve current land rights framework.</u> The government enforces positive law for securing diverse tenure and production systems where they exist or is working towards the improvement of the legal status of diverse land rights, including the secondary rights of tenants, sharecroppers, and pastoralists.	0-3
Ref:	<i>Give brief justification of response here; add applicable references.</i>	
2	<u>Adequate funding for formalization.</u> Where the law provides for diverse tenure and production systems – including the secondary rights of tenants, sharecroppers, and pastoralists – to be recognized and defined, the government is earmarking funds for this purpose.	0-3
Ref:	<i>Give brief justification of response here; add applicable references.</i>	
3	<u>Adequate institutional support.</u> Government has made necessary institutional arrangements and appointed qualified personnel to carry out measures required to help communities with diverse tenure and production systems, including tenants, sharecroppers, and pastoralists, to secure their lands, such as helping them identify, and then survey and register their collective lands.	0-3
Ref:	<i>Give brief justification of response here; add applicable references.</i>	
Block 1 Score (0-9)		B1

Block 1 Rubric: Use to Score Block 1 (LandMark, adapted)

Description	Score
No, levels are minimum to non-existent.	0
Partial, levels of support are extremely limited, Even if visible, support is insignificant.	1
Partial, levels of support are significant. Full levels of support are not met, but significantly addressed.	2
Yes, levels of support are full and sufficient to address the issue at hand.	3
The indicator is not applicable. Not applicable is used in cases where the subject matter in question is non-existent.	N/A

Section 3: Results

Compute Total Score:

Block 1 Score (0-9):	B1
3B Final Score (0-100)	$\left[\frac{B1}{9}\right] \times 100$

3B Final Score	0-100
