

LANDex Methodology: 5C.1

Commitment 1: Secure Tenure Rights

5C.1

Those living on indigenous land who perceive their rights to land protected against dispossession or eviction, disaggregated by sex.

Section 1: Description of Indicator, Implementation and Scoring

Method to be Used	National or Sub-National Representative Survey	
Introduction	Indicator 5C.1 captures perception of tenure security among men and women living on indigenous land	
Source of Methodology	LANDex, using PRIndex data	
Data Needed	<p>PRIndex data* is required to fulfil this indicator, as the methodology has been written with its specific variables and data points in mind. See more about available PRIndex data here: https://www.prindex.net/data/</p> <p>* Currently, PRIndex does not offer indigenous lands as an option in questions about category of tenure. Indigenous lands could be identified only if the respondent chose to write them in the Other category. Therefore, at the moment there is not sufficient data for us to calculate indicator 5C.1.</p>	
How to Implement	Implementation of 5C.1 depends on the availability of the data required for this indicator. Below, you will see the specific questions and variables that correspond to indicator 5C.1.	
How to Derive Dashboard 1C from PRIndex Survey	Overview	<p>Below you will see the PRIndex questions and variables that would correspond to 5C.1.</p> <p>For further detail, see the PRIndex Data Use Guide here: https://www.prindex.net/methodology/data-use-guide/</p> <p>In short, 5C.1 would be derived from the following PRIndex variables:</p> <ol style="list-style-type: none"> 1. country 2. location 3. gender 4. tenure_class 5. mainprop_security
	location	<p>In Gallup World Poll: W14 In Waves 1 & 2: Q6</p> <p>[Area: government classification] – narrows data set to only rural respondents. R1. Urban R2. Rural – select for R2.</p>
	gender	<p>In Gallup World Poll: WP1219 In Waves 1 & 2: Q21_Gender</p> <p>[Random selection] – automatically chooses the person who will respond to the survey. R1: Male R2: Female</p>

	tenure_class	<p>In Gallup World Poll: WP_20666_WP20801 1In Waves 1 & 2: Q37, Q42_final</p> <p>[Ownership] – tells us if land is owned privately, jointly, or by community. Could include indigenous lands if specified in R12. Other.</p> <p><i>Who owns this property?</i></p> <p>R1. I own myself [alone] – select for private ownership. R2. I own jointly with my spouse – select for private ownership. R3. I own jointly with someone else – select for private ownership. R4. A family member who lives in this household owns R5. A family member not living in this household owns R6. Another private person/individual owns [not related to persons in this household/not a family member] R7. Employer owns R8. A company [not employer] owns R9. A public institution owns/government owns R10. A cooperative owns R11. Community owns – select for community land. R12. Other, please specify _____ – select and include if indigenous land.</p>
	mainprop_security	<p>In Gallup World Poll: WP_20667_WP20802 In Waves 1 & 2: Q46</p> <p>[Worry of leaving against will] – tells us the perception of tenure security among those with documentation or secure tenure rights living in rural areas.</p> <p><i>How worried are you that you could lose the right to use this property, or part of this property against your will in the next five years?</i></p> <p>R1. Not worried at all R2. Not worried R3. Somewhat worried R4. Very worried R5. (Don't know) R6. (Refused)</p>

Section 2: Assessment

Block 1: Rural respondents

1	Total number of respondents (observations) in country	B
Ref:		
2	Surveys that indicated location was rural	B1
Ref:		
Total number of respondents in rural areas		B1

Block 2: Gender of respondents

1	Total number of surveys carried out in rural areas:	B1
Ref:		
2	Respondents in rural areas that indicated they were male	B2.A
Ref:		
3	Respondents in rural areas that indicated they were female	B2.B
Ref:		
Total number of respondents in rural areas		B1
Number of B1 respondents that were male		B2.A
Number of B1 respondents that were female		B2.B

Block 3: Tenure Class

1	Total number of surveys carried out in rural areas:	B1
Ref:		
2	Respondents in rural areas that indicated they live on indigenous lands	B3.A
Ref:		
3	Respondents in rural areas that indicated they live on indigenous lands who indicated they were male	B3.B
Ref:		
4	Respondents in rural areas that indicated they live on indigenous lands who indicated they were female	B3.C
Ref:		
Total number of respondents in rural areas		B1
Number of respondents in rural areas that indicated they live on indigenous lands		B3.A
Number of respondents in rural areas that indicated they live on indigenous lands who indicated they were male		B3.B
Number of respondents in rural areas that indicated they live on indigenous lands who indicated they were female		B3.C

Block 4: Tenure Security for Main Property

1	Total number of respondents in rural areas	B1
Ref:		
2	Respondents in rural areas that indicated they live on indigenous lands that indicated they were "Not worried at all" about losing rights to use property in next five years:	B4.A
Ref:		
3	Respondents in rural areas that indicated they live on indigenous lands that indicated they were "Not worried" about losing rights to use property in next five years:	B4.B

Ref:		
4.	Respondents in rural areas that indicated they live on indigenous lands that indicated they were "Not worried at all" or "Not worried" about losing rights to use property in next five years who indicated they were male	B4.C
Ref:		
5.	Respondents in rural areas that indicated they live on indigenous lands that indicated they were "Not worried at all" or "Not worried" about losing rights to use property in next five years who indicated they were female	B4.D
Ref:		
Total number of respondents in rural areas		B1
Respondents from B3.A that indicated they were "Not worried at all" about losing rights to use property in next five years:		B4.A
Respondents from B3.A that indicated they were "Not worried" about losing rights to use property in next five years:		B4.B
Respondents from B3.A that indicated they were "Not worried at all" or "Not worried" about losing rights to use property in next five years who indicated they were male		B4.C
Respondents from B3.A that indicated they were "Not worried at all" or "Not worried" about losing rights to use property in next five years who indicated they were female		B4.D

Section 3: Results

Compute Total Score:

Rural respondents	B1
Rural respondents by Gender	
Number of Men:	B2.A
Number of Women:	B2.B
Rural respondents by Tenure Class	
Indigenous Land:	B3.A
Rural respondents by Security	
Not worried at all	B4.A
Not worried	B4.B
Secure (Not worried or Not worried at all) and Male	B4.C
Secure (Not worried or Not worried at all) and Female	B4.D

1C Overall Score (0-100):	$\left[\frac{B4.A + B4.B}{B3.A} \right] \times 100$
---------------------------	--

5C.1 Final Score	0-100
------------------	-------
